The EnviroLux LED Easy Hang Industrial Food Grade Vaportight LED Fixture product line is available in several wattages with a wide choice of mounting configurations and optical distributions designed to replace HID lighting systems from 250w to 1000w MH or HPS. Typical commercial applications include food processing plants, Mining tunnels, commercial warehouse facilities, and manufacturing facilities where our up to 201 Lumens per watt and a high CRI of 80 efficiency, help factory workers best disseminate their production equipment and surroundings for safety. Fixture wattages for mounting heights of up to 35 feet are available.

Specifications and Features:

Housing:
Designed for ease of installation and maintenance. Poured in place gasket seal the enclosures from the most hostile of environments. Economical mounting system can provide dramatic savings in installation labor. Very tough diffusers resist breakage and reduce replacement and maintenance costs. Patented frosted lens for reducing direct glare and hot spot images of the LEDs. Durable stainless steel mounting hardware. No need to drill through the housing for installation, so installation time is dramatically reduced, lowering costs. Optional stainless steel bail for chain/cable hung installations.
